

Velvet Fingers: Grasp Planning and Execution for an Underactuated Gripper with Active Surfaces

Robert Krug, Todor Stoyanov, Achim Lilienthal

AASS Research Center, Örebro University, Sweden

Manuel Bonilla, Vinicio Tincani, Gualtiero Fantoni, Antonio Bicchi

Interdepart. Research Center “E. Piaggio”, University of Pisa, Italy

Narunas Vaskevicius, Andreas Birk

Robotics Group, Jacobs University Bremen, Germany

- Optimization-based grasp planning for an underactuated gripper
- Simultaneous grasping and manipulation using active surfaces
- Evaluation in a cluttered tabletop scenario
